

Please do not implement any proposal that would lessen Indiana's Telephone Privacy law protections. We used to be bothered by a lot of unwanted telemarketing calls, but since signing up on Indiana's Telephone Privacy List the number of unwanted calls has greatly decreased. This has greatly added to our quality of life when we are at home.

Thank you for your consideration of this request for our right to privacy in our home with regard to unwanted telemarketing calls. We greatly enjoy the protection that the state of Indiana has implemented with their Telephone Privacy law and do not wish to see that diminished.
